

“At a time when I was in search of a caring environment for my husband of 56 years, when I was looking for a place away from home to keep his body and mind active, St. Agnes Adult Day Senior Center reached out to us.

The selfless and caring men and women of St. Agnes Center have provided us with a haven of support in a spiritually rich and professional environment. For five days a week, my dear one is happily occupied and lovingly understood at St. Agnes Center, while I have been given a wonderful gift of support and respite to help me during this difficult time in our lives”

-Josephine L. Ferguson

Our History

In 1980, Monsignor Charlebois of St. Paul's Catholic Church had a dream to build an adult day center where members of our community could come together to reminisce, sing, socialize, and feel worthwhile through planned activities. In August of 1997, his dream became a reality. We opened our doors with one adult guest and two caregivers. Today, St. Agnes Adult Day Service Center has eleven staff members and eighty trained volunteers who provide care and safety for up to thirty-five guests per day.

Purpose.
Peace of Mind.

Our Mission

The mission of St. Agnes Adult Day Service Center is to provide structured activities, nurturing relationships, and professional care for body, mind, and spirit. Our services promote dignity, independence, and equality for adults with disabilities, regardless of race, religion, gender, or financial means.

St. Agnes is...

a friendly and nurturing place where trained caregivers provide meaningful activities, safety, healthcare and personal care for adults who cannot stay home by themselves during the day. Adult day care allows a participant's family to work, run errands, or simply take a break. Participants arrive in the morning and go home in the evening.

St. Agnes is not...

a nursing home, taking individuals away from family and leaving them disconnected from the community. Nor does it provide in-home care, which leaves individuals feeling isolated.

Our main goal is...

to have each participant function at their highest potential for as long as possible.

St. Agnes provides...

- Healthcare, medication administration, weight and blood pressure monitoring, podiatry care, and other health services in a safe and nurturing environment.
- Group games, arts and crafts, cooking, gardening, community outings, and other activities designed to replace feelings of isolation and loneliness with friendships and productivity.
- Exercise classes and structured therapeutic activities that will help to maintain physical fitness and keep mental abilities sharp.
- Daily chores, such as setting tables for lunch, folding clothes, sweeping, and other helpful activities that provide feelings of purpose and accomplishment.
- A comfortable solarium facing the playground at Tiny Tim's Childcare Center as well as interaction with the children.
- Beauty parlor visits once a month to promote feelings of pride and well-being.
- We are bilingual.
- Transportation provided by Porter County Aging and Community Service for a nominal fee.
- Secure environment for Alzheimer's care.
- Monthly support groups

Is your loved one...

- Suffering from memory problems, dementia or Alzheimer's disease?
- Growing increasingly forgetful, confused or restless?
- Unable to focus on one activity for very long?
- In an unsafe environment simply from being left home alone?

If so, you and your loved one may benefit from St. Agnes Adult Day Service Center for any number of reasons. Our caregivers are grateful for the safety of St. Agnes Center and consistently report that the center exceeds their expectations when it comes to providing their loved ones with a thriving, caring, and safe environment.

St. Agnes Adult Day Service Center is proud to serve Porter County and surrounding areas. With funding from the United Way as well as grants, donations, memorials, and special events, St. Agnes Center is able to provide financial assistance to those who qualify in order to help defray the cost of adult care.
